INTRODUCTION

The Rules of Conduct have been prepared to assist residents in appreciating and enjoying the lifestyle that our complex offers and encouraging them to respect the interest and welfare of all who live in it.

The managing agent is Central Developments Group Asset Management (Pty) Ltd.

The managing agent carries out the landlord's instructions as per the agreement between the parties. They enforce all the rules and laws that residents must follow to ensure that the estate functions well and that we continue to have a happy and satisfied community.

The municipal by-laws and these Rules of Conduct, which govern this community, must be followed in terms of the law. It is the responsibility of the Central Developments Property Group (Pty) Ltd to ensure that these are carried out in the interest of all.

All tenants of units and other persons granted rights of occupancy by any resident of the relevant unit are obliged to comply with these rules and regulations, notwithstanding any provisions to the contrary contained in any lease or grant of right of occupancy.

RULES OF CONDUCT

The Rules of Conduct are binding on all residents and persons occupying any unit. They are also responsible for ensuring that members of their families, tenants, guests, domestic workers, and any other visitor or service provider comply with them. Residents who let their units from the landlord must incorporate the Rules of Conduct in their tenancy agreements (latest copies of which are available from the managing agents and online at <https://www.centraldevelopments.co.za/2letnow/>).

In the event of annoyance, aggravation or complaints occurring between residents, an attempt should be made by the parties to settle the matter between themselves. This should be done with consideration and tolerance. When problems cannot be resolved between the parties concerned, then only should they be brought to the landlord's attention in writing.

Should the matter be of such urgency that immediate action is required, a trustee may be contacted to resolve the problem.

With regards to the interpretation of these rules, the landlord's decision is final and binding.

These Rules of Conduct supersede all previously issued rules if in conflict with it.

Explanation of Aggregator or 3rd party fees

There are 2 main types of fees relating to prepaid electricity –

1. Vending fees – negotiated and agreed upon by the body corporate and Iswitch
2. 3rd party fees which are broken down into 2 platforms
 - a. Off the Iswitch Prepaid platform using the below registration scan and via instant EFT 3rd party with preferential fee
 - b. Via Ontec who aggregates via Blue Label, Easypay and other 3rd parties found at stores and petrol stations

Due to the size of our portfolio we are constantly looking to negotiate lower 3rd party pricing and to pass the benefit onto you, the consumer. Below we set out our latest pricing for 3rd party purchases –

In order to be transparent we set out our base cost as the maximum possible worst payment choice type of billing – which would be to purchase using a credit card via our registration system (because it is so expensive we actually do not list this option to ensure clients are not prejudiced by mistakenly using it). The maximum cost of 3rd party vending we use on our calculation is therefore **5.85%**. However you will **never** pay this as we apply discounts to the vending, the structure of which appears on receipts (except banking receipts which are created by the banks and are very limited in what information they display). The total transaction fee will therefore include the vending fee and the maximum third party fee. Please do not panic, this is not the fee you will pay as we then apply the various discounts based on the following

				Actual fees charged
1. Iswitch reg consumer				
Iswitch SID EFT (via our app)	electronic	5.85%	3.92%	1.93%
2. Ontec cash	cash	5.85%	3.00%	2.85%
3. Ontec credit card	credit card	5.85%	1.00%	4.85%

Should you purchase in a store the charge in respect of the 3rd party fee will depend on whether you are using cash or a credit card. The base fee for transacting via Ontec is 3% and the additional fees depending on which payment method you use.

As you can see from the above our third party fees are very well priced – **Actual fees charged column**

Thank you for your business
