With thirteen retirement estates throughout Gauteng, comprising more than 5000 units successfully completed since 2010, we have firmly established ourselves as the market leader in this sector. ## WELCOME HOME!

### SECURE RESIDENTIAL, LIFESTYLE AND FRAIL-CARE FACILITY

Just a few years ago the site where Celebration Retirement Estate is situated now, was a humble peach farm. Today the majestic development is home to hundreds of happy, active over-50s enjoying the beautiful views, facilities, houses and apartments offered by this luxurious retirement estate in the heart of Johannesburg's northern suburbs.

With the first village complete and the second village busy taking shape, Celebration Retirement Estate will ultimately comprise 976 houses and apartments. Residents are spoiled for choice with 15 different floorplans – from 1-bed, 1-bath apartments to 3-bed, 2-bath houses – and a variety of beautiful finishes to choose from. We also have rental options available should you prefer to rent rather than buy a property.

The expansive grounds border on a protected green area with a walkway offering residents ample opportunities to enjoy nature and take in the lovely scenery. But the nucleus of the estate is the fully operational lifestyle centre where residents congregate, and a true sense of community is cultivated.

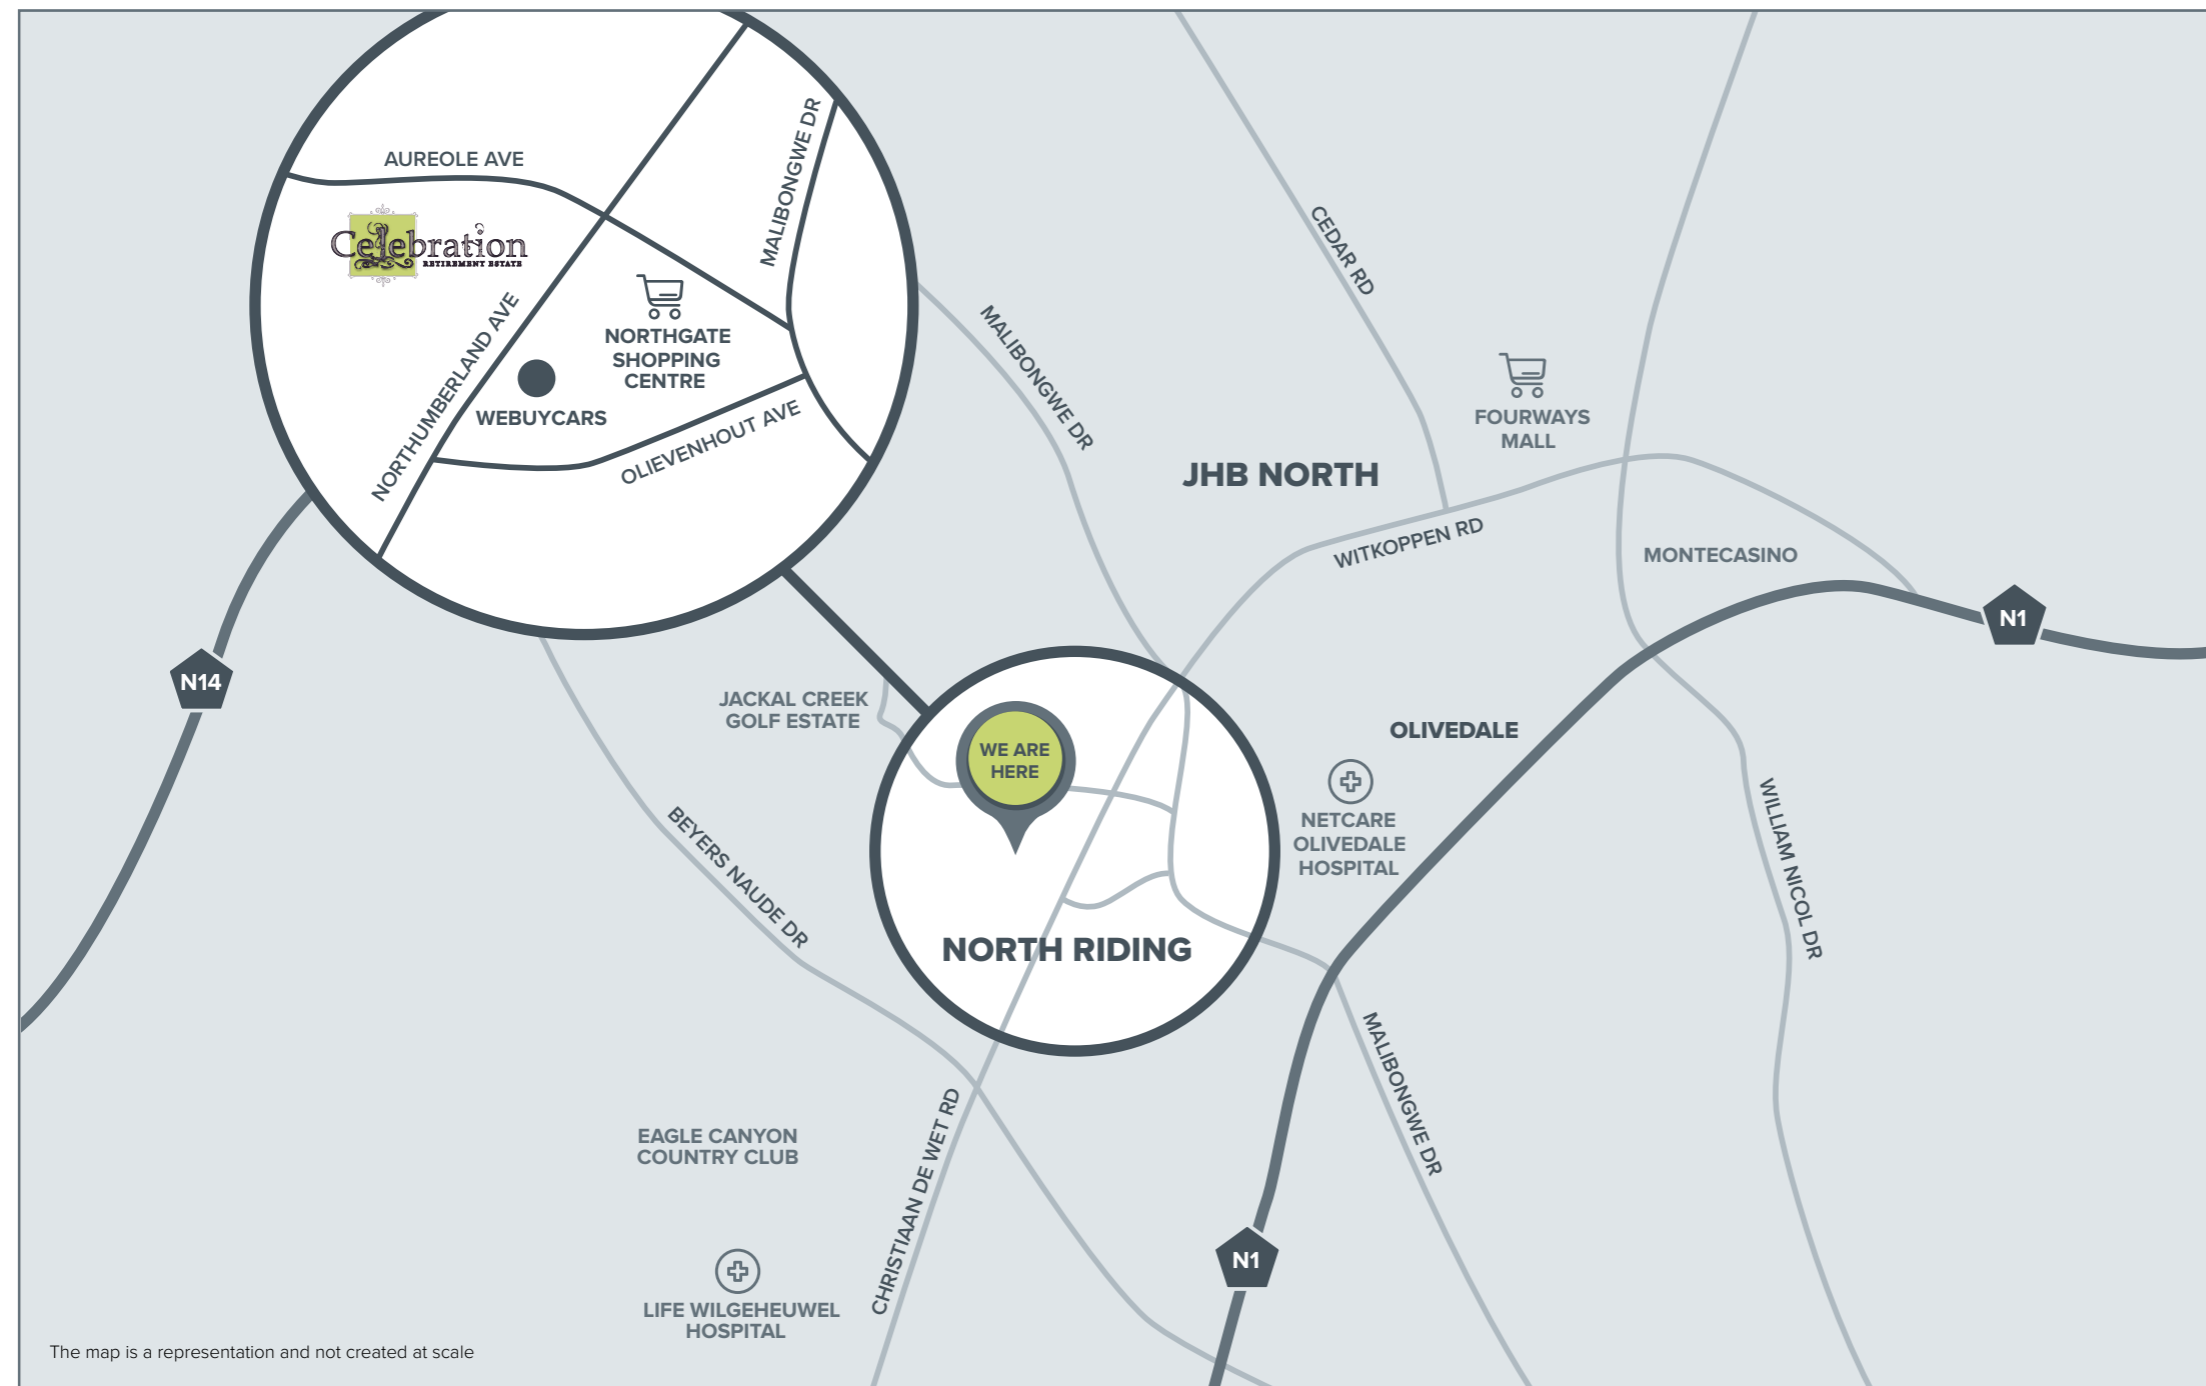

If you are looking for an active, social and comfortable retirement lifestyle, but also for the peace of mind that 24-hour security and medical care services are available on site, then Celebration Retirement Estate is the place where you should spend your silver years!

## AFFORDABLE LEVIES AND MAINTENANCE

WHERE LIVING IS  
MADE EASY

### WHAT IS INCLUDED IN THE MONTHLY LEVIES AT CELEBRATION RETIREMENT ESTATE?

- Water
- Structure and common property insurance
- Garden services
- Shuttle service twice a week
- 24-Hour security and patrolling guards
- Panic button and emergency assistance
- Basic health care (e.g. blood pressure testing and basic wound care)
- Postbox subscriptions
- Upkeep of common property and external maintenance on houses
- Communal area electricity (e.g. lifestyle centre, street lights, guardhouse and electric fencing).

The levies are affordable compared to other options in the market because your levy is not used to subsidise frail care or kitchen operations. Further energy savings are attained through the use of energy efficient construction methods and materials endorsed by the EDGE ratings initiative. The scale advantage of close to 1000 units in the estate, results in each owner having to contribute less with regards to shared costs. When your unit is sold or undergoes a change of ownership 3.5% of the net sales price is paid into a reserve fund to provide for future escalations or extra unforeseen expenses.

## EFFECTIVE MANAGEMENT

### WE TAKE CARE OF THE REST

Being an estate of such considerable size, Celebration requires expert managing agents to ensure the effective day-to-day running of the estate's facilities and to ensure successful delivery of the many services offered.

CSi Property Management is the estate's managing agent and is responsible for the appointment and management of all service providers and operators within the estate. CSi Property Management currently manages ten of Central Developments' retirement estates and has the knowledge and expertise needed to manage upmarket retirement estates of this caliber offering such a variety of services.

## CONNECTIVITY

### TECHNOLOGY IS NOT JUST FOR THE YOUNG!

## EDGE REGISTRATION AND CERTIFICATION

### ENVIRONMENTALLY FRIENDLY AND ENERGY SAVING DESIGN

The Green Building Council of South Africa (GBCSA) is the licensed registrar of the EDGE green rating tool in South Africa. EDGE stands for Excellence in Design for Greater Efficiency and certifies that resource efficient technology, products and design were used in the construction of a building.

Celebration is the first retirement estate in Gauteng registered for EDGE certification by the GBCSA. Celebration's homes are therefore constructed and equipped with **environmentally friendly and energy saving** technology and materials to comply with certification requirements.

Independent tests analysing actual consumer patterns at four similar retirement villages, have shown that a solar water heating system can potentially save the residents of a simplex unit an average of R315.00 and the residents of an apartment R164.00 per month on their electricity consumption (based on R1.85/kWh and a 31 day month). These tests have also shown that it is possible to rely only on solar power for water heating with very little, if any, additional electricity required.

GERRIT BRANDOW, DIRECTOR OVERSEEING THE CELEBRATION PROJECT, SAYS THE FOLLOWING:

"In accordance with research done by the Green Building Council of South Africa an EDGE certification could **increase a unit's value** by 11% to 12%. An increase of 5% to 6% in rental rates is also achievable."

#### THE FOLLOWING RESOURCE EFFICIENT INTERVENTIONS ARE INCLUDED IN EACH UNIT:

##### ENERGY

- Roof insulation
- LED light bulbs
- PV thermal solar system

##### WATER

- Aerated/low flow shower heads
- Aerated/low flow taps for kitchen sinks and wash basins

### FULL OWNERSHIP VERSUS LIFE RIGHT OWNERSHIP

Celebration Retirement Estate **offers full ownership** and not just life rights like most other retirement developments.

- **Life rights** purchase means there is no actual acquisition of property, but rather a purchase of **the right to live** in a specific unit. The ownership of the unit is retained by the developer and is not transferred to the individual, as with full ownership. The basic concept is that an individual pays a sum of money in respect of a specific unit in the scheme and in return they and their spouses receive the right to live in that unit for the remainder of their lives. Upon the passing of one spouse, the surviving spouse may continue to live in the unit until their death or until they sell their right to the unit. The price that is paid is market-related and pre-determined and is often viewed as **a lifetime of rental paid in advance**. There are thus no transfer or registration fees and your family cannot inherit the property, nor can the resident profit from the unit's capital growth when it is sold.
- **Full ownership** means the owner fully owns the unit as well as an undivided share in the common property. This property is **registered in the purchaser's name** and can be re-sold at a profit or be left as part of an inheritance.
